

Accessing your super under financial hardship

1 July 2023

All our forms and publications are available at spiritsuper.com.au/forms or call us on 1800 005 166, and we'll send you a copy.

Accessing your super

You can access your super when you:

- reach your preservation age and permanently retire
- change jobs after 60
- reach your preservation age and choose to start a transition to retirement income stream while still working
- turn 65 (even if you're still working).

These are called 'conditions of release'.

Your preservation age is between 55 and 60, depending on when you were born. As at 1 July 2023, if you were born before 1 July 1964, you've already reached your preservation age. If you were born after 30 June 1964, your preservation age is 60.

While most people access their super when they retire, there are times when you can access it earlier. For more information on when you can access your super, read our *Access your super* fact sheet.

Withdrawing your super early

Life doesn't always go to plan. If something goes wrong, you may be able to access some or all of your super to get through tough times. This includes if you:

- experience severe financial hardship
- meet certain compassionate grounds
- have a terminal medical condition
- suffer a permanent incapacity
- suffer temporary incapacity (in this case you may be able to access an insured benefit only, if you have income protection cover and are eligible for the benefit).

The process for accessing your super under these conditions is different to 'normal' withdrawals. This fact sheet only provides details on severe financial hardship. For details on the other early release conditions, read our *Early access to super* fact sheet.

Penalties apply if you illegally withdraw your super early.

Things to consider before withdrawing super

You should consider the following before making a withdrawal:

- Any insurance attached to your account will be cancelled if you close your account.
- To keep your Spirit Super account open, you must leave at least \$200 in the account. We may adjust any withdrawal amounts to meet this requirement.
- If you access your super early, you may have less money in retirement.
- Part withdrawals are paid in line with your chosen future transaction investment strategy. For example, if your chosen investment strategy for contributions and other transactions is split equally between two investment options, the withdrawal will be made in equal proportions from these investment options.
- If you want to claim a tax deduction or split your contributions with your spouse, do this before withdrawing all or part of your super. These options aren't available for contributions you've withdrawn from Spirit Super.

! Regardless of how and when you access your super, you should get advice from a licensed financial adviser first to confirm if a withdrawal will have tax or social security implications. If you're under 60, you may have to pay tax.

How long will it take to get my money?

Eligibility to claim

There are strict government rules about withdrawing your super for severe financial hardship.

You must meet **ALL** of the requirements, under either category A or category B below:

Category A

- I haven't received a financial hardship payment from any super fund in the last 12 months
- I've been a member of Spirit Super for at least three months
- I've received eligible Commonwealth income support payments for a continuous period of at least 26 weeks and I'm still receiving payments and
- I'm unable to meet reasonable and immediate family living expenses.

OR

Category B

- I'm unemployed or work less than 10 hours each week
- I've received eligible government income support payments for a cumulative period (not necessarily a continuous period) of at least 39 weeks since reaching my preservation age.

If you don't meet all the eligibility requirements under either category A or category B, you aren't eligible for a financial hardship withdrawal.

You must be receiving income support payments.

We can't pay a financial hardship benefit if you haven't received eligible income support payments for the required period shown above. We verify this with Centrelink/Department of Veterans' Affairs before approving your payment.

How much can you apply for

2

The amount you can apply for depends on which category you're applying under.

The approved amount may be reduced by tax if you're under 60.

Category A

- The most you can withdraw is \$10,000 before tax.
- The minimum amount you can receive is \$1,000 after tax, or the balance of your account if it's less than \$1,000.

We may adjust your requested amount to meet these requirements.

You can only receive one financial hardship payment from super (across all funds you participate in) in a 12-month period. If you've already received a payment from either Spirit Super or another super fund in the previous 12 months, you aren't eligible for another payment, even if you withdrew less than the maximum amount allowed.

Category B

- You can apply to withdraw your whole account balance.

Tax on withdrawals

If you're under 60, you may pay tax on super withdrawals. If you're 60 and over, super withdrawals are tax-free.

Super accounts are made up of a tax-free component and a taxable component. When you access super, the amount withdrawn is paid proportionately from both components (you can't choose which component your withdrawal is paid from).

You can check the tax components for your balance in **Member Online** or by contacting us.

All taxes are deducted from your payment before you receive it.

Your age	Tax on the tax-free component	Tax on the taxable component ¹
Under your preservation age ² .	Nil	Your marginal tax rate or 22% ³ , whichever is lower.
Between your preservation age ² and 60.	Nil	Up to \$235,000⁴ – nil. Over \$235,000⁴ – your marginal tax rate or 17% ³ , whichever is lower.
60 and over.	Nil	Nil

¹This table shows the tax rates applied to withdrawals with a taxed element. If your taxable component includes an untaxed element, additional tax may be applied to that element. | ²Age 55–60, depending on your date of birth. | ³Tax rate includes the Medicare levy. | ⁴The low rate cap is \$235,000 for 2023–24 and is reduced by any previous withdrawals you've made and applied to the cap.
